Bob, Jim and Rick,

EPA has reviewed the LWG Final Round 3A Stormwater FSP and concurs that all our comments were adequately addressed in this document. We understand that there may be changes in a few monitoring locations that will be determined during the reconnaissance survey, but those will be addressed and approved on a case-by-case basis. Therefore, pursuant to Administrative Settlement Agreement and Order on Consent, EPA is hereby approving the FSP for stormwater sampling and directs the Lower Willamette Group to implement it.

Please let me know if you have any questions or concerns regarding this email.

Subject: LWG Final Round 3A Stormwater FSP

On behalf of Carl Stivers:

EPA Managers –

Attached are the revised stormwater FSP and QAPP for stormwater sampling work that is currently underway per EPA's authorization letter dated February 15, 2007. This version includes all the edits required by EPA in that letter and an additional edit requiring sampling at WR-22 instead of WR-24 per an email from EPA dated February 20, 2007 from Kristine Koch.

Once we receive your acceptance of these documents as final, we will post these files to the project web site and send out hard copies to the standard project mailing list.

Please let me know if you need anything else regarding this FSP. Thanks.

**Carl Stivers**
